

Winscribe Professional

Product Description

Today, nearly all business professionals use mobile devices for work-related tasks. Many are seeing even greater productivity and efficiency gains by pairing their mobile devices with speech technology. By leveraging your voice and your organisation's investment in mobile devices, you can better support your workforce to boost productivity and efficiency.

The Winscribe Professional mobile dictation app provides an intuitive and easy-to-use interface. Dictations can be created and sent with minimal clicks, and wireless connectivity with the Winscribe server ensures real-time updating and immediate transmission of dictations for traditional or speech recognised transcription.

Winscribe Professional works seamlessly with Winscribe's digital dictation workflow system, enabling users to send dictations securely from anywhere and monitor the progress of the transcription process. With options to route work directly to a secretary or transcription team, you have the power of choice in your hand. Dictations can be uploaded anywhere, anytime – with client demographics attached – ensuring document accuracy and accelerating the transcription process.

"...Our new mobile dictation solution has helped our attorneys deliver information faster and more reliably."

Key Benefits

With Winscribe Professional, users can work efficiently while on-the-go and make productive use of formerly non-productive time. Other advantages include:

Faster, more efficient document turnaround

Track work and stay on top of workloads

Dictate anywhere, at any time

Be more responsive to clients

Secure voice and data transmission

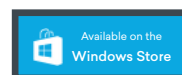

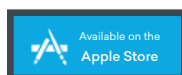

Maximise your mobile hardware investment

Supported Mobile Platforms

Winscribe Professional is supported over the latest mobile technology, including:

- » Android smartphones running OS v4.0.3 or higher
- » BlackBerry smartphones running v10 or higher
- » iOS devices running v7.0 and above
- » Windows Phones and tablets running OS v8 and above
- » Philips SpeechAir

IMPORTANT: Downloading Winscribe Professional is free of charge. However, for complete functionality, users will need to have a Winscribe server licence.
